Re: U.S. Patent Application No. 10/712,865 for the Invention Entitled "BILLIARD BALL RACK"
Filed on November 13, 2003
Our File No. 65,300-1464

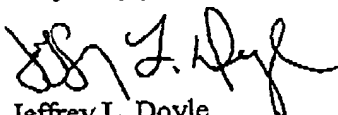

Dear Madam or Sir:

Upon review of the Filing Receipt for the above referenced patent application mailed March 12, 2004, Applicant noticed that the Domestic Priority Data set forth therein is incorrect. In particular, the filing receipt states that the above referenced patent application is a "CON of 09/699,603 10/30/2000 ABN". Applicant respectfully submits that this data is incorrect because the holding of abandonment for Application No. 09/699,603 was withdrawn, as evidenced by the Notice dated November 7, 2003 (attached hereto), indicating that Applicant's Petition to Withdraw Holding of Abandonment was granted.

Accordingly, please correct the priority data to reflect that Application 09/699,603 is not abandoned as marked on the accompanying copy of the Filing Receipt.

Should you have any questions or need anything further, please do not hesitate to contact me.

Very truly yours,

Jeffrey L. Doyle

OFFICE OF PETITIONS

In re Application of
McCormick et al.
Application No. 09/699,603
Filed: 30 October, 2000
Attorney Docket No. BRU06 P-419

ON PETITION

This is a decision on the petition, filed by facsimile on 28 October, 2003, to withdraw the holding of abandonment of the above-identified application.

The petition is GRANTED.

The application was held abandoned on 22 July, 2003, for failure to timely file new formal drawings as required by the Notice of Allowability mailed on 21 April, 2003, which set a three (3) month statutory period for reply. Notice of Abandonment was mailed on 27 August, 2003.

Petitioners asserts that the formal drawings were timely filed on 21 July, 2003. In support of the petition, petitioners have submitted a copy of five sheets of drawings as well as a postcard bearing an "Office-date" stamp of 21 July, 2003, itemizing the filing of, *inter alia*, Drawings (5 pgs.) and identifying the application by Application Number. Petitioners have also submitted a copy of the transmittal letter, bearing a certificate of mailing dated 17 July, 2003, transmitting the formal drawings.

A review of the documents submitted reveals that the transmittal letter filed with the drawings miscaptioned the application number as 09/669,603. Under current Office procedure, a response that has an incorrect serial number is handled in accordance with MPEP 508.03. If a paper having an incorrect serial number contains sufficient information to identify the correct application and was timely received at the PTO, the holding of abandonment will be withdrawn.

2

Application No. 09/699,603

The first inventor's name, title of invention, filing date, attorney docket number, Examiner's name, and Art Unit are correctly stated on the drawing transmittal letter. In reviewing the papers which were submitted, it is therefore concluded that there was sufficient information thereon to associate the papers with the instant file. Further, a review of Office PALM records indicates that drawings were received in the USPTO and forwarded to the USPTO contractor for pre-issuance review on 11 August, 2003. It is therefore concluded that the formal drawings were in received in the Office but may have been delayed in being matched with the proper application due to the incorrect application number on the transmittal letter. However, if it is later determined that the formal drawings were not in fact received in the USPTO, petitioners will be required to supply a new copy thereof.

The petition complies with the requires set forth in 37 CFR 1.8(b).

Accordingly, the holding of abandonment is withdrawn. No petition fee is due and none has been paid.

This application is being forwarded to the Publishing Division for processing into a patent.

Telephone inquiries concerning this matter may be directed to the undersigned at (703)308-6918.
